

AUTHORS IMPACT JUSTIFICATION

Justification for the paper “XXX” with respect to ETSON objectives and compliance with ETSON guides and/or research programs

The paper relates to the ETSON objectives that form a suitable forum for voluntary exchange of analyses and R&Ds in the field of nuclear safety by sharing experience and exchanging technical and scientific opinions and work together in safety assessment and research projects.

The topic of the paper is associated with safety assessment and research, which are identified as the main ETSON activities. The paper is in line with the ETSON Position Paper “Research Needs in Nuclear Safety for GEN 2 and GEN 3 NPPs” regarding 2.1.1 “Combination of Deterministic and Probabilistic Approaches”.
